

Program

(Preliminary program - subject to change)

Tuesday, June 16th

08.30	Registration	
09.00	Welcome to the 3rd CiPAC	
09.10	Introduction of the day	
09.20	Neurotoxicity	David Polaner
10.00	Break	
10.30	Neurodevelopmental outcome after general anaesthesia/surgery	Nicola Groes Clausen
11.00	Cerebral oximetry in children <i>So NIRS yet so far</i>	<i>To be announced</i>
11.30	Paediatric traumatic brain injury <i>A go-through-guideline</i>	Marianne Berntsen
12.00	Lunch	
13.00	Anaesthesia in CHD for non-cardiac surgery	<i>To be announced</i>
13.30	Anaesthesia in children with univentricular hearts <i>Running on one cylinder..</i>	Jakob Gjedsted
14.00	Anaesthesia in children with pulmonary hypertension <i>The right ventricle is the key to success</i>	Hanne Ravn
14.30	Break	
15.00	Acceptable blood pressure limits during paediatric anaesthesia <i>How low can you go?</i>	David Polaner/Jakob Gjedsted
15.20	Anaesthesia in children with reduced ventricular function <i>Risks and pitfalls</i>	Hanne Ravn
15.40	Perioperative cardiac arrest – what to do? <i>Arrests in complex scenarios</i>	Marianne Berntsen
16.00	End of lectures	
16.30	Complimentary Canal Cruise and Light Dinner <i>ALL CiPAC Participants and Faculty are Welcome!</i>	

Wednesday, June 17th

08.00	Introduction of the day Introduction to “Tips, tricks and cheats”	Morten Bøttger Lasse Høgh Andersen
08.10	The use of the supraglottic airway <i>Use, misuse and abuse of the LMA</i>	Thomas Engelhardt
08.40	The challenge of difficult airway management <i>A practical approach</i>	Morten Bøttger
09.10	Paediatric eFONA <i>What saves life - Needle or knife?</i>	Markus Weiss
09.40	Break	
10.10	Ventrain <i>The world of straw ventilation</i>	Dietmar Enk
10.40	Laryngoscopy in children – Pro/con panel <i>The most treasured devise</i>	Dietmar Enk, Thomas Engelhardt, Markus Weiss
11.10	Ultrasound assessment of the airway <i>Adult and paediatric approach to neck US</i>	Michael Seltz Kristensen
11.30	Lunch	
12.30	Foreign body airway obstruction in children <i>When something small becomes a big problem</i>	Marcus Weiss
12.50	Difficult extubation <i>Difficult “takeoff” - difficult “touchdown”?</i>	Morten Bøttger
13.10	Tips, tricks and cheats <i>Sharing your best advice</i>	Lasse Høgh Andersen
13.30	End of Lectures	
14.00 - 18.00	CiPAC Workshop <i>Full Course delegates only</i>	
19.00	Dinner and Entertainment at the DGI-byen Restaurant <i>Complimentary for ALL CiPAC Participants and Faculty - Welcome All!</i>	

WORKSHOP

14.00 Start of Workshop

On the 2nd floor at DGI-byen

- | | | |
|----------|--|------------------------|
| 1 | Straw ventilation
<i>What Ventrain can do for you and your patients</i> | Dietmar Enk |
| 2 | eFONA in your hands
<i>Experience our hybrid airway model</i> | Morten Bøttger |
| 3 | Difficult airway management
<i>Sandbox workshop</i> | Kirsten Eriksen |
| 4 | Rigid bronchoscopy
<i>The challenge of foreign body airway obstruction</i> | Markus Weiss |
| 5 | Lung ultrasound in the critically ill child/neonate
... | Nadya Yousef |
| 6 | Morbidity: My worst-case scenario
... | <i>To be announced</i> |
| 7 | Picclines insertion in neonates
<i>Tips and tricks</i> | <i>To be announced</i> |
| 8 | Distraction when it works
<i>Virtual reality, magic glove and more ..</i> | <i>To be announced</i> |

18.00 End of Workshop

Thursday, June 18th

09.00	Introduction of the day	Torsten Lauritsen
09.05	Evidence based paediatric anaesthesia of today... <i>Overview of the most well-designed studies relevant for paediatric anaesthesia</i>	Arash Afshari
09.40	“Anaesthesia for the repair of oesophageal atresia” just another routine anaesthesia? <i>Case presentation of a complex disease.</i>	Volker Classen
10.00	Break	
10.30	Perioperative haemodynamics during operation for oesophageal atresia. Do we really know what we are doing? WHAT to do with: Fluids, vasopressors, haemodynamic monitoring, haemostasis and the management of severe bleeding? <i>Panel discussion: Neonatologists, paediatricians, anaesthesiologist and intensivists</i>	Marguerite Ellekvist (moderator) <i>To be announced</i>
11.15	Operation succeeded - mission completed? <i>Postoperative morbidity and Consequences along the side.</i> <i>Panel discussion: Surgeon, Neonatologist and the Anaesthetist</i>	<i>To be announced</i>
12.00	Lunch	
13.00	Best place for the right patient – who to take care in the PICU <i>A debate between different specialities: Paediatric/anaesthetist</i>	<i>To be announced</i>
13.30	Perioperative US <i>FATE – How to optimize the critically ill neonate?</i>	Nadya Yousef
14.00	A new challenge in town– Laparoscopy in premature. Are we there yet? <i>What the surgeon thinks and what the anaesthetist thinks</i>	Torsten Lauritsen
14.30	Break	
15.00	The child that doesn't want to be anesthetized <i>Can we do better?</i>	Volker Classen
15.15	VR for painful procedures Integrated play	Søren Walther Larsen Torsten Lauritsen
16.00	Delirium postoperatively – one drug problem solved? <i>Perspectives from the clonidine study</i>	Mogens Hedegaard Ydemann/ Arash Afshari
16.30	Goodbye – we hope to see you in Copenhagen again
