

Program

Tuesday, June 16th

08.30	Registration	
09.00	Welcome to the 3rd CiPAC	
09.10	Introduction of the day	
09.20	Neurotoxicity	David Polaner
10.00	Break	
10.30	Neurodevelopmental outcome after general anaesthesia/surgery	Nicola Groes Clausen
11.00	Neuromonitoring in children <i>So far so good – but good enough?</i>	Mirjana Cvetkovic
11.30	Paediatric traumatic brain injury <i>A go-through-guideline</i>	Marianne Berntsen
12.00	Lunch	
13.00	Anaesthesia in CHD for non-cardiac surgery	David Polaner
13.30	Anaesthesia in children with univentricular hearts <i>Running on one cylinder..</i>	Jakob Gjedsted
14.00	Anaesthesia in children with pulmonary hypertension <i>The right ventricle is the key to success</i>	Hanne Ravn
14.30	Break	
15.00	Acceptable blood pressure limits during paediatric anaesthesia <i>How low can you go?</i>	David Polaner/Jakob Gjedsted
15.20	Anaesthesia in children with reduced ventricular function <i>Risks and pitfalls</i>	Hanne Ravn
15.40	Perioperative cardiac arrest – what to do? <i>Arrests in complex scenarios</i>	Marianne Berntsen
16.00	End of lectures	
16.30	Complimentary Canal Cruise and Light Dinner <i>ALL CiPAC Participants and Faculty are Welcome!</i>	

Wednesday, June 17th

08.00	Introduction of the day Introduction to “Tips, tricks and cheats”	Morten Bøttger Lasse Høgh Andersen
08.10	The use of the supraglottic airway <i>Use, misuse and abuse of the LMA</i>	Thomas Engelhardt
08.40	The challenge of difficult airway management <i>A practical approach</i>	Morten Bøttger
09.10	Paediatric eFONA <i>What saves life - Needle or knife?</i>	Markus Weiss
09.40	Break	
10.10	Ventrain <i>The world of straw ventilation</i>	Dietmar Enk
10.40	Laryngoscopy in children – Pro/con panel <i>The most treasured devise</i>	Dietmar Enk, Thomas Engelhardt
11.10	Ultrasound assessment of the airway <i>Adult and paediatric approach to neck US</i>	Michael Seltz Kristensen
11.30	Lunch	
12.30	Foreign body airway obstruction in children <i>When something small becomes a big problem</i>	Jost Kaufmann
12.50	Difficult extubation <i>Difficult “takeoff” - difficult “touchdown”?</i>	Thomas Engelhardt
13.10	Tips, tricks and cheats <i>Sharing your best advice</i>	Lasse Høgh Andersen
13.30	End of Lectures	
14.00 - 18.00	CiPAC Workshop <i>Full Course delegates only</i>	
19.00	Dinner and Entertainment at the DGI-byen Restaurant <i>Complimentary for ALL CiPAC Participants and Faculty - Welcome All!</i>	

14.00 Start of Workshop

On the 2nd floor at DGI-byen

- 1 Straw ventilation**
What Ventrain can do for you and your patients Dietmar Enk

- 2 eFONA in your hands**
Experience our hybrid airway model Morten Bøttger

- 3 Difficult airway management**
Sandbox workshop Kirsten Eriksen

- 4 Rigid bronchoscopy**
The challenge of foreign body airway obstruction Jost Kaufmann

- 5 Lung ultrasound in the critically ill child/neonate**
Nadya Yousef

- 6 Morbidity: My worst-case scenario**
Maja Filipovic
Mogens Ydemann

- 7 Taste your own meds**
Torsten Lauritsen

- 8 Distraction when it works**
Virtual reality, magic glove and more .. Søren Walther-Larsen

18.00 End of Workshop

Thursday, June 18th

09.00	Introduction of the day	Torsten Lauritsen
09.05	Evidence based paediatric anaesthesia of today... <i>Overview of the most well-designed studies relevant for paediatric anaesthesia</i>	Arash Afshari
09.40	“Anaesthesia for the repair of oesophageal atresia” just another routine anaesthesia? <i>Case presentation of a complex disease.</i>	Volker Classen
10.00	Break	
10.30	Fluids and inotropes pro/con debate <i>Anaesthesiologist & intensivist</i>	Arash Afshari/ Morten Hylander
11.00	Perioperative haemodynamics during operation for oesophageal atresia. Do we really know what we are doing? WHAT to do with: Fluids, vasopressors, haemodynamic monitoring, haemostasis and the management of severe bleeding? <i>Panel discussion: Neonatologists, anaesthesiologist and intensivists</i>	Marguerite Ellekvist (moderator) Nadya Yousef/Arash Afshari/Morten Hylander/Ulrik Laursen-Thomsen
11.45	Lunch	
12.45	Operation succeeded - mission completed? <i>Postoperative morbidity and Consequences along the side.</i> <i>Panel discussion: Surgeon, Neonatologist and the Anaesthetist</i>	<i>Gert Fonnest / Ulrik Laursen-Thomsen, Marguerite Ellekvist</i>
13.30	Perioperative US <i>FATE – How to optimize the critically ill neonate?</i>	Nadya Yousef
14.00	A new challenge in town– Laparoscopy in premature. Are we there yet? <i>What the surgeon thinks and what the anaesthetist thinks</i>	Torsten Lauritsen
14.30	Break	
15.00	The child that doesn't want to be anesthetized <i>Challenge induction?</i>	Volker Classen
15.15	Alternatives to the midazolam straitjacket	Søren Walther Larsen
	Integrated play	Torsten Lauritsen
16.00	Delirium postoperatively – one drug problem solved? <i>Perspectives from the clonidine study</i>	Mogens Hedegaard Ydemann/ Arash Afshari
16.30	Goodbye – we hope to see you in Copenhagen again
